Earth Science Exhibit Hall Activity

Go into the rock tunnel.

- Using the sign, draw a picture of the intruded granite and country rock below:

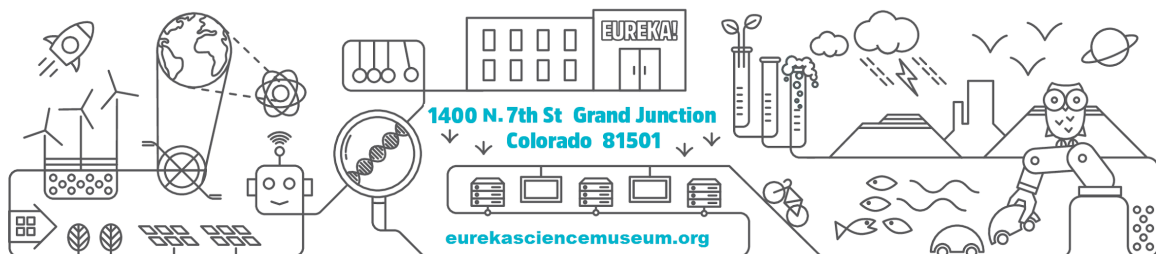

Intruded Granite	Country Rock

- Look at the fluorescent rocks and minerals. What type of glowing colors do you see?

Find the Eocene Fossil Exhibit (Near the rats in Biology).

- Draw a sketch of an animal fossil and a plant fossil below:

Animal Fossil	Plant Fossil

Look for the table with fulgurite samples.

- Describe the different shapes you see in the fulgurite samples.

Move to the Earthquake station near the fulgurites.

- Try to build a house-like structure that can withstand an Earthquake. Sketch your structure below before starting the earthquake!

Sketch of your structure:	Was your structure able to survive the earthquake?

Find the tornado station.

- Observe the tornado simulator. Describe how the movement of air creates the tornado shape.
