EUREKA!

THE SCIENCE OF EGG DYEING

Did you know the pit of an avocado can be used to make pink dye? Or that turmeric root is used to stain things yellow? Join us for a morning of egg dyeing, and learn about the process of creating colored dyes from all natural things, such as fruits and vegetables!

Saturday, April 4, 2020
9am-12pm

Guardians can drop their kids off or register themselves if they'd like to join and participate.
